TEN PAGES TODAY

APPARENTLY IN A DISAGREEMENT

Big Four Believed to be Entangled
in Discussion of Time to Admit
Germany to League.

ALLIED REPLY FORMULATED

Semi-Official French Note Says it
Will be Given to Foreign
Minister Tomorrow.

Vauresson, France, June 12.—
The Foreign Minister of Turkey and
his secretaries arrived here at mid-
night. He was greeted by French
and British representatives. The
remainder of the Turkish peace dele-
gates will arrive later.

Paris, June 12.—The Big Four ap-
parently are entangled in discussion
and disagreement on subjects such
as immediately precede conclusion
of every important subject taken up
since the beginning of the peace
conference.

Following Premier Clemenceau's
rejection of the revision plan for ad-
mitting Germany to the league of
nations, which is understood to have
specified a date not far distant, the
Big Four tried to reach a compromise.

A semi-official French note today
that the allies' reply to the German
counter proposals has already been
formulated and will be transferred
to Foreign Minister Brockdorff to-
morrow.

In other quarters, it was stated,
the reply would be given to the Ger-
mans on Monday and that seven
days would be allowed for them to
sign.

The Big Four and allied experts
are expected to complete the league
of nations and army of occupation
sections of the treaty today. There
seemed but slight possibility of the
reply being finished on schedule
time tomorrow.

At yesterday's session the Big
Four decided that the future of
Silesia should be determined by a
plebiscite and the coal output of that
region be divided between the Poles
and the Germans.

The Big Four also heard the reply
of the council of foreign ministers
regarding the Hungarian question.
They recommended development of a
line beyond the Hungarian-Soviet
border would be forbidden to go. In case
Foreign Minister Belukun agreed to
support any line of demarcation, the
council suggested that he be invited
to send representatives to the peace
conference within two weeks.

The recommendation did not meet
with full approval of the Big Four.

The allies have wired Admiral
Kolchak that his reply is substan-
tially in agreement to their propo-
sition and that they are therefore
willing to extend to him the support
set forth in the recent note officials
announced this afternoon.

MILROY WINS THE BANNER

Awarded Honor For Highest Stand-
ing in Connersville District

The Milroy Epworth League was
awarded the banner for having the
highest standing in the Connersville
district, at the closing session of
the district convention at Waldron
yesterday afternoon. Miss Emma
Terhune of Milroy was re-elected
secretary of the district organiza-
tion and W. E. Wagoner of Milroy
was elected second vice-president.
George Witse of this city conducted
a model devotional hour at yester-
day morning's session. The
convention voted to hold the next
meeting at the Grand Avenue M.
E. church in Connersville. Miss
Mary Louise Miller and Miss Mag-
dalene Arbuckle represented the
league of St. Paul's M. E. church
here.

PORTLAND GETS NEXT ONE

Western City Lands 1920 Shriners
Convention Today

(By United Press.)

Indianapolis, Ind., June 12.—Al-
Kader Temple, Portland Oregon, to-
day won the battle to entertain the
1920 session of the imperial coun-
cil, Ancient Arabic Order, Nobles of
Mystic Shrine, domain of North
America.

By a vote of 325 to 122 those
shriners won the battle from Jeru-
salem Temple of New Orleans. All
visiting Shriners were asked to
vote, but only a small percentage
cast ballots.

REPORT FAVORS THE RESOLUTION

Senate Foreign Relations Committee
Sanctions Move to Separate
League and Treaty

WHAT RESOLUTION PROVIDES

Notifies World United States Re-
serves Right to Delay Decision
on League of Nations

(By United Press.)

Washington, June 12.—The senate
foreign relation committee today
voted, 8 to 7, to order a favorable
report on the Knox resolution, vir-
tually to separate the league of na-
tions from the treaty proper.

The resolution as presented to
the senate, notifies the world that
the United States reserves the right
to delay decision on membership in
the league of nations and that the
senate and people should decide
themselves whether they wish to be
members.

Today's developments were re-
garded as opening of the great fight
to amend the treaty as approved by
President Wilson in Paris, a course
which, if successful, republicans
readily admit would finally result
from the plan of world financing
outlined to the senate foreign re-
lations committee by Wall street
peace objectors predicted today.

They declare the frank state-
ments of Morgan, Vanderbilt and
Davison show that Wall street plus
the formulation of the greatest trust
in history to be underwritten by
the United States government and
to control not only the country's
money but the industries as never
before.

The inevitable result of putting
into Wall street's grip the whole
control of financial and industrial
resources would be elevation of
prices of practically everything the
people of this country use, it is de-
clared.

URGES PRIVATE OWNERSHIP

Chairman Hurley Recommends U. S.
Quit Building Ships.

(By United Press.)

Washington, June 12.—Private
ownership of the American merchant
marine was recommended to con-
gress by Chairman Hurley of the
United States shipping board today.
Hurley in a letter to Senator Jones,
chairman of the committee, stated
that the government should retire
from the business of building ships
and should dispose of the com-
mercial fleet now on hands as quick-
ly as possible.

SHIP IS SUNK

(By United Press.)

New York, June 12.—One ship
was sunk and three others damaged
in a collision in a thick fog off New
York harbor during the night, ac-
cording to wireless messages re-
ceived here today.

THREE LAW SUITS

DISMISSED TODAY

Divorce Case of Jesse D. Stout
Against Bessie Stout and Others
Taken Off Docket.

ACTION IN THE HAUGH CASE

Custody of Children Awarded to In-
dianapolis Woman and \$20 a
Week Allowed For Support.

There was no trial in court today,
although the jury had been ordered
to appear, because the quiet title suit
of A. R. Horkless against Charles
L. Henry, president of the Indiana-
polis and Cincinnati Traction com-
pany, which was set for today, could
not be tried, due to the fact that the
plaintiff has lately filed a motion for
a change of judge.

The divorce suit of Jesse D. Stout
against Bessie Stout, which has been
pending for several weeks, was dis-
missed by the plaintiff this morning
and the costs were paid. Two other
cases were dismissed this morning
and the costs paid—that of the Cen-
tral Supply company against Thom-
as H. Stout, for \$200 on a note, and
the Engle System company against
Herchel Gregory for \$150 on a con-
tract.

The court has awarded the cus-
tody of the two boys of Marguerite
and J. Guy Haugh of Indianapolis,
who were principals in a divorce suit
sent here on a change of venue from
Marion county, last month, and al-
lowed their custodians \$10 a week
each for their support.

Judge Will M. Sparks indicted
last Friday evening, when Charles J.
Orbison, attorney for Mrs. Haugh,
stated that Mr. and Mrs. Haugh had
agreed for the children to be placed
in the custody of two Indianapolis
women, who had expressed a willing-
ness to take care of the boys
through their friendship for Mrs.
Haugh. The only thing that delayed
the court making the order in the
case at that time was the matter of
support. He frankly told Mr. Orbi-
son and Donald Smith, who repre-
sented Mr. Haugh, that he thought
Mr. Haugh should be required to
pay \$10 a week for the support of
each child.

The older son, J. Guy Haugh, Jr.,
is given into the custody of Mrs.
Otto Keller, and the younger, Ron-
ald, has been placed in charge of Dr.
Amelia Keller.

Ms. Haugh's attorney, at the con-
ference here last Friday, broached
the subject of an order by the court
in the divorce proceedings, appoint-
ing a trustee to sell the property.

SHOWS NECESSITY OF FARMERS ORGANIZING

L. M. Vogler of Hope, Eighth Dis-
trict Director of State Associa-
tion, Speaks Here Today.

STATE OFFICERS PRESENT

A district session of the Indiana
Federation of Farmers Associations
was held this afternoon in the
sheriff's office at the court house. L.
M. Vogler of Hope, Ind., director of
the eighth district, was in charge of
the meeting. Officers of the district
and many farmers were present to
hear the main speaker of the after-
noon, who was John G. Brown,
president of Monon, Ind.

Mr. Vogler in his talk took up the
problem of organization. He told
how various other industries had
been organized during the war period
and contrasted them with the farm-
ers who were not together. He stated
that agricultural men must organ-
ize their forces in order to combat
the new problems that are presenting
themselves daily. Mr. Taylor was to
speak shortly before three o'clock.

LOCAL FARMERS

GO ON WHEAT TOUR

Learn That in Fields Where Hot
Water Treatment Was Used,
Loose Smut Disappeared

WHAT UNTREATED SEED SHOW

Also Discovered That Treatment
Killed All of The Cockle as
Well as the Weak Germs

The Shelby county tour of wheat
fields where the seed had been treat-
ed for loose smut, was joined by a
number of Rush county farmers
yesterday. All were enthusiastic over
the results of the treatment. In
each field where treated seed was
used a check was made by sowing
untreated seed. It was found that
the untreated seed had from 3 to
20 per cent and an average of 11.1
per cent of loose smut while the
treated seed had in most cases no
smut at all and in no case more
than 1 per cent.

It was also discovered that the
treatment had killed nearly all of
the cockle, and that there was a
noticeable absence of the short,
weak-strawed wheat with small
heads. The scientists in the party
believe that the absence of small
heads is due to the fact that the hot
weather had killed the weak germs
that were unable to produce good
strong plants.

This conclusion was borne out by
the experience of Ernest Thornburg,
president of the Indiana Corn grow-
ers association, who stated that he
had treated seed for a plot of wheat
in 1917 and that the plot was free
from smut in 1918, while the other
wheat from treated seed showed
had 8 percent of smut. The seed
from this plot was then used for the
1918 seeding, and Mr. Thornburg
stated that he never had a better
prospect for wheat than he has in
this field sowed from the descendants
of treated seed, and added that the
wheat from treated seed showed
more strength and vigor and had
longer heads than the wheat from
untreated seed.

Mr. Ostrander of Purdue, discuss-
ing this subject, said that nature
has a way of weeding out the unfit
but by the intervention of man as
much may be done in a few years,
nature would do in many centuries,
and he added that the hot weather
treatment for smut seems to weed
out the runts in wheat much the
same as farmers weed out the runts
in selecting breeding stock.

BERT HINKLE DROWNS IN CREEK AT DELPHI

Former Rushville Man, Brother of
Charles W. Hinkle, Loses Life in
Water While Seining

WORD IS RECEIVED TODAY

Charles W. Hinkle of this city re-
ceived word this morning to the ef-
fect that his brother, Bert Hinkle,
age 47, of Delphi, formerly of this
city, had been drowned in Deer
Creek while seining. Mr. Hinkle and
four other men were dragged into
the stream by the swift current and
two others escaped only after a hard
struggle. Mr. Hinkle's body was
later recovered with a rake.

Mr. Hinkle was formerly in the
grain business in this city in con-
nection with his brother. He had
lived at Delphi for about five years
and while there was engaged in the
barber business. He is survived by
three daughters, the wife, mother,
and the one brother of this city. He
was a member of the Knights of Py-
thias and of the Delphi Presbyterian
church. Mr. and Mrs. Hinkle left
this afternoon for Delphi.

HEARS OF BROTHER'S DEATH

Mrs. J. M. Maple Called to Ander-
son by News of Accident

Word was received by Mrs. J. M.
Maple, of near Glenwood, late last
night that her brother, Ezra Britton,
age 56 of Anderson had been seri-
ously injured at four o'clock and
had died at five. Mr. Britton, who
is an employee of the Union Traction
company, is well known in this
city. It is thought that he was killed
by a car although no particulars
were received. Mrs. Maple left this
morning for her brother's home.

RAIL OPERATORS TO AID STRIKERS

President of Union Said to Have
Issued Orders Not to Accept
Western Union Messages

TO BE EFFECTIVE SATURDAY

Brokers Operators in East Promise
Sympathetic Strike, According
to Pres. Konenkamp

(By United Press.)

Chicago, June 12.—Further com-
plications were added to the na-
tionwide strike of the commercial
telegraphers today by an order
said by union officials to have been
issued by President Manion of the
order of railroad telegraphers, from
handling commercial business after
June 14.

Union officials regard action of the
railroad telegraphers as very en-
couraging. Secretary Campbell of
the Commercial Telegraphical Un-
ion said.

Campbell said much of the com-
mercial business from the smaller
cities was handled through railroad
offices. He estimated between 25-
000 and 30,000 telegraphers are
now on strike. They are leaving
their keys hourly.

Union officials expect members of
the western brokers division to de-
cide today whether they will go on
sympathetic strike.

That allied divisions of telegraph-
ers may join the nation wide strike
of key men, was indicated here to-
day by a message received by Pres-
ident Konenkamp of the commercial
telegraphers union of America,
from the eastern brokers operators
division saying that they would
soon go on sympathetic strike.

Western brokers operators also
are understood to be considering
a sympathetic walk-out.

If orders were issued to railroad
telegraphers, as indicated in the
above dispatch, on Western Union
messages will be accepted at the C.
I. & W. office here, after the Wes-
tern Union office closes at 8 o'clock
at night. L. C. Snodgrass, C. I. &
W. agent made this announcement
yesterday. The Big Four does no
Western Union business here.

LOTTIE ROSEBERRY DIES

Wife of D. M. Roseberry Expires at
Hospital at 1:30 Today.

Mrs. Lottie Roseberry, age 63,
wife of D. M. Roseberry of Raleigh
died at the Sexton hospital at 12:30
today. Death followed an operation
for gall stones about ten days ago.
The body was taken to the Wyatt
undertaking establishment and will
be shipped to Lovett, Indiana, where
burial will be made in the Tea Creek
cemetery near there. She is survived
by the husband; one son, Frank
Craig, of this county; two daughters
of Jennings county, and one brother,
W. H. Short, also of Jennings county.

URGED TO PREPARE FOR WORLD QUEST

Eighth Year Graduates Are Shown
Need of Education by Speaker,
to Answer Call For Men.

The annual Educational Day ex-
ercises were held yesterday after-
noon in the Graham Annex audi-
torium. The Rev. L. E. Brown of the
Main Street Christian church deliv-
ered the address of the occasion.

ANNUAL COMMENCEMENT HELD

The Rev. L. E. Brown Says One of
Greatest Problems Today is
Question of Disability.

The annual Educational Day ex-
ercises were held yesterday after-
noon in the Graham Annex audi-
torium. The Rev. L. E. Brown of the
Main Street Christian church deliv-
ered the address of the occasion. The
Rev. J. H. French of Glenwood
offered the invocation and Rev. Fred
Dennis gave the benediction. Cole's
orchestra of this city furnished the
music.

The Rev. L. E. Brown took as his
subject, "A World Quest for Men."
He said that it is "a pleasure, a
privilege and a compliment to me
to have the opportunity of address-
ing this graduating class of my own
county." After paying a tribute to
the teachers and parents of the
children, he continued: "The world is
looking for men that are fitted and
willing to do things. They must be
willing to do the world's work. We
want the best. Even the savage
realizes the fact that to be a leader
the man must be large physique and
have a great deal of intellect. As a
result they pick this man for their
leader."

"The world is like Diogenes, look-
ing for men, real men. When this
earth was first created there was no
man to enjoy the beautiful sights
and enjoy the beautiful sounds.
God made man in His own image
and made him the master of all he-
ings. Centuries later man failed
to fill the moral obligations that
were thrust upon him and he fell
into the deepest mire and degrada-
tion."

"The world was looking for a
man to lift the earth from this low
level and they went to a heathen
home and took a man that was
born of heathen parents. We see
Abraham in all his splendor. All the
world at this time were bending
their backs to their master."

"There was a baby boy born and
he was kept in his mother's keeping
for fear that his enemies would
take his life. He was in exile in
Egypt for a period of thirty-seven
years and went to school in the
University of hard knocks for the
next forty, and we see Moses as the
world's greatest emancipator."

"The world went to the green
pastures and found David, the shep-
herd's son, and he became the man
of the hour. We found the world a
short time later in idolatry and sin.
A man was needed but there was
seemingly none to be found and
Nemias and Ezra were called upon
to lift Israel from her low place
and place her on a new and higher
level. The way is yet to be paved
for the coming of the greatest man."

"The world is now calling for men
and graduates, what are you going
to be? You have gone to school for
eight years and have you the push
to go four more and then another
four. The world is needing men to
master problems of the hour and
you with a higher education can
help to solve these problems. One
of the greatest problems confront-
ing the nation today is the question
of disability. We must be better men
and woman. We must be better an-
imals. There are also many laws
to be adjusted and you, when you
have become men, are the ones
upon whom the burden rests. It
must be through education that the
world will find its men of tomor-
row."

The speaker then appealed to the
parents of the children to give

RUSHVILLE PLEASED BY QUICK RESULTS

Everyone is pleased with the quick results of simple witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. One man's eyes were so badly strained he could not read without pain. Two applications relieved him. A lady with weak, inflamed eyes, was greatly helped by ONE bottle. We guarantee a small bottle of Lavoptik to help ANY CASE weak, strained, or inflamed eyes. F. E. WOLCOTT, Druggist. (Adv.) T-6

CLOSING EXERCISES OF ST. MARY'S SCHOOL

Diplomas Are Awarded to Ten Pupils Completing The Eighth Year, Wednesday Night

SCHOOL PRESENTS PROGRAM

The closing exercises of the St. Mary's school were held last night in the presence of an audience which far exceeded the capacity of the church hall.

The various classes of the school gave an interesting program of musical and literary numbers and an address to the graduates was made by the Rev. M. Wagner of Morris, Ind.

Diplomas were presented by the pastor, the Rev. M. W. Lyons, to ten pupils completing the eighth year: Ebert Meyer, Bert Mills, William McCoy, Margaret Kirk, Frances Flodder, Norma O'Neil Mildred Madden, Helen Joyce, Margaret Trader and Florence Cooning.

The honors of the different classes were won by the following pupils: Grade 8, Margaret Kirk; Grade 7, Eloise Kelley; grade 6, James Keating; grade 5, John Mullins; grade 4, William Mesling; grade 3, Carroll Gantner; grade 2, Ruth Canley; grade 1, Escher Mullins.

B. McDaniel, lot 70 in the corrected plat of Mays, Ind., \$200.

Columbus M. and Mary M. Rhodes, to Alonzo S. Rhodes, 4 acres in Center township, \$1 etc.

Mary L. Geraghty, et al, to Mary Geraghty, part of lot 8 in L. Sexton's Heirs First Addition to Rushville, \$1, etc.

EAT \$500,000,000 BANQUET EVERY YEAR

Pests on Plants Feast Royally, According to Charles Lathrop Pack of Forestry Association.

LOCUST SAID TO BE A PIKER.

Washington, June 12—There is a pest for every plant and they eat a \$500,000,000 banquet in the United States every year writes Charles Lathrop Pack, president of the American Forestry Association, in the American Forestry Magazine. Pack reaches the conclusion that Adam must have attained a great age if he named all the insects and fungi injurious to plant life.

The "seventeen-year" locust has come in for a great deal of publicity this year; but he is a piker in doing damage, Pack says. There is more interest this year in tree pests because thousands upon thousands of people are planting, or will plant in the fall, Memorial Trees.

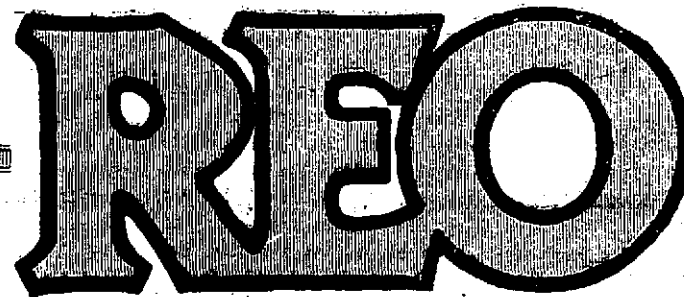

Due to a lack of shipping these pests from Europe were kept at home for a while during the war. In the mean time the scientific sharps are working over time to find the poison gas or anything else that will put a finish to the pests.

Electric Starting, Lighting and On Pneumatic Tires

THESE THREE innovations when introduced by the Reo engineers revolutionized Motor Truck standards and multiplied Motor Truck efficiency.

THIS REO "SPEED WAGON" was the first Motor Truck to be equipped with electric starter and electric lights.

AND IT WAS ALSO THE FIRST vehicle designed exclusively for trucking—not a converted touring car, but especially designed for commercial use only—to be equipped with pneumatic tires.

THE VERY MAKERS who are now striving to imitate this Reo "Speed Wagon"—and doing so as to looks, but not in performance!—these very rivals flouted the idea when first introduced by Reo.

WE NO LONGER NEED to explain the tremendous advantages—the greater efficiency—of this type of Motor Truck.

IMITATION—the sincerest form of flattery—more to endorse the Reo idea than even they—is doing that. Rivals are doing we can do.

SUFFICE IT TO SAY then, that when you have decided you need a speedy, sturdy, economical truck for your own use, prudence dictates that you insist on an original—not an imitation.

THIS REO IS THE ORIGINAL and, having been in service now more than four years—tens of thousands of them—its superiority has been proven beyond cavil.

IF YOU CAN get a Reo "Speed Wagon" you will know you have the best. If you can't—

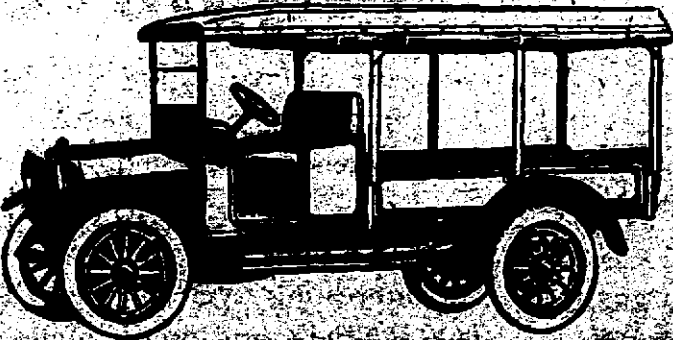

THERE'S THE RUB—demand has always been vastly greater than the output, though that also is the largest in the world of this type of truck.

OUR OWN QUOTA has never been sufficient to supply all who wanted Reos. Tardy buyers, waiting till the last moment to order have had to be denied, much to our regret.

SO THE ONLY WAY to be at all sure of getting a Reo "Speed Wagon" is to order early—now. Don't delay. Demand increases apace while there's a limit to Reo factory capacity.

BETTER SEE ABOUT THIS at once. Delay may result in your having to accept your second choice in lieu of a Reo.

M. C. U.

Do you know the meaning of these letters? It is "Middle Class Union".

The union is, as its name implies, a federation of those who do not live by manual labor. It is the outcome of post-war conditions in England.

The effect of continual strikes is to increase the cost of everything, the ultimate tendency being to create scarcity. In America there are many who advocate a six hour day, which, if observed by workers in all lines of activity—from the physician to the scavenger—would mean that only a quarter of our time would be devoted to the production of anything.

The physician produces health, and the scavenger produces cleanliness. If two hours less a day are devoted to the creation of these conditions, there will be more dirt and disease than there is now. More by one fourth—if we assume that doctors only work eight hours at the present time. They work more, of course. And if farmers in Rush county and other places, took a notion to come down to six hours a day, the effect would be like the plagues in Egypt.

The middle classes realize that general prosperity is not increased by a monotonous succession of strikes. The bricklayer strikes—and houses become more expensive, so that the locomotive engineer finds it too costly to build a home.

GOODBY,
WOMEN'S
TROUBLES

The tortures and discomforts of weak, lame and aching back, swollen feet and limbs, weakness, dizziness, nausea, as a rule have their origin in kidney trouble, not "female complaints." These general symptoms of kidney and bladder disease are well known—so is the remedy.

Next time you feel a twinge of pain in the back or are troubled with headache, indigestion, insomnia, irritation in the bladder or pain in the loins and lower abdomen, you will find quick and sure relief in GOLD MEDAL Haarlem Oil Capsules. This old and tried remedy for kidney trouble and allied derangements has stood the test for hundreds of years. It does the work. Pains and troubles vanish and new life and health will come as you continue their use. When completely restored to your usual vigor, continue taking a capsule or two each day.

GOLD MEDAL Haarlem Oil Capsules are imported from the laboratories at Haarlem, Holland. Do not accept a substitute. In sealed boxes, three sizes.

There is but one practical way to REDUCE the COST of LIVING, and that is by paying close attention to every detail of buying.

Mr. Farmer—Bring us your produce—We pay more and sell for less.

Sap and Salt

By BERT MOSES

Many a man has gone broke buying things cheap.

In the finality, common sense always triumphs.

We all want to live long, but none wants to get old.

Deep down in human nature you generally find a desire to do what is right.

The good things in life come by stage coach. Our troubles arrive by limited express.

When a man sees nothing but faults in another's horse, he is getting ready to offer a low price for it.

Hez Heck says: "Len Swork thinks a manicurist is one who specializes on treating men, and he isn't far off at that."

Accordingly, he strikes for higher pay—and freight rates go up. Every one of these strikes pinches the physician, the farmer, and the bookkeeper; but if these also strike prices will merely go higher still.

The money that is to provide all these wage increases must come from somewhere—and of course we are told that it must come from the capitalist. But there isn't capital enough now to finance industry; so eventually it will not be obtainable from this source. The farmer has a fairly clear conception of these things; though one of the middle classes, he is a capitalist himself.

The physician and the bookkeeper are at present squeezed between capital and labor, but they have the intelligence to see that if they form independent unions they will simply increase the general scarcity. So the whole middle class has federated in Great Britain, and determined to vote solidly against any legislation that favors any defined class—whether capitalist, professional, clerical, or industrial.

There seems to be logic in this move. We haven't come to it yet in America; but we can't fail to notice that legislation appears in increasingly to be designed for the benefit of this or that social grade, rather than for the nation as a whole. And the only effect of it is constant diminution of products and distributed wealth—while the dollar sinks steadily to half the value that it represented six years ago.

It is apparently going to be about as easy to get an indemnity from Germany as to draw blood from a turnip.

The ex-empress and the ex-crown prince of Germany recently enjoyed a luncheon together in Holland. It was probably a Dutch treat.

Powerful Pile
Remedy Discovered

Has Never Failed to End Most Obstinate Case of Piles in Few Days

For years it has been proved that so-called external remedies applied to or inserted in the rectum cannot cure piles, and at the best can only give temporary relief. Surgical operations also do not remove this cause, but simply the formation.

This wonderful prescription, known as Miro Pile Remedy, is so efficient in the treatment of piles, that even chronic cases of from 20 to 30 years standing with profuse bleeding have been completely cured in from three to ten days. Think of it! Just a few doses of a carefully balanced prescription and the most persistent case of piles is absorbed, never to return.

All pharmacists dispense Miro or can get it for you on short notice. Surely it's worth the little trouble to obtain it to be rid of piles forever.

IMPORTANT—What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in such cases it is not necessary to take the internal preparation. (Adv.)

RECONSTRUCTION
IS IN FULL SWING

Every State Taking Hand in Movement to Get Back to Business of Peace

ALL FIGURE IN THE SURVEY

Big Americanization Campaign Is Started in Arizona Among The Many Aliens

(By United Press.)

Washington, June 11.—Reconstruction movements, now in full swing in every state, cover every conceivable angle of the problem of getting the nation back into peace time form, according to a survey begun soon after the armistice by the National Council for Defense.

Governors, mayors, state legislatures, churches, boy scouts, chambers of commerce, volunteer workers and civic bodies are co-operating in plans to insure a square deal for demobilized soldiers and get the factories humming again.

No state failed to figure in the survey.

Alaska, too, is helping, by offering to place 3,000 demobilized soldiers in jobs as teachers, clerks and watchmen.

A great mass of information that fills yards of filing cabinets piled ceiling high has been collected by the defense council describing the state projects. Collected and edited for early publication, the information for some states fills hundreds of pages.

Most projects aim at getting soldiers on the land as farmers and helpers.

For this work the Colorado legislature appropriated \$725,000, to be spread over a period of 20 years. The money will be administered by a board which was given \$25,000 to spend in assisting soldiers to take advantage of the offer during the first two years. Similar appropriations now being considered by legislatures of other states.

An appropriation of \$5,000,000 is provided for loans to demobilized soldiers in a bill introduced into the Iowa legislature. Under the bill no soldier could borrow more than \$2,000 and especial provision was made to encourage married soldiers to take advantage of the offer. Reasonable time and terms are provided for return of the funds.

Denver is one of several cities now in the midst of campaigns to "own-your-own-home" and help reopening of building activities.

One form of reconstruction work connected with Americanization projects is exemplified in New Bedford, Mass., where cotton millers organized to teach English to all foreign born residents. Boy scouts are planning to help.

Michigan and Ohio were among the first of the many states that called reconstruction congresses. Women are represented equally with men on a reconstruction board appointed by the governor of Michigan.

Governor Cox stole a move on Ohio's congress by personal letters to 160 mayors, asking their help in creating a \$1,000,000 fund to public works to give work to the unemployed.

Twenty-five Ohio cities now have Americanization programs.

Job canvassing for returning doughboys was begun early in New York city where merchants associations combined to canvass all manufacturers and list openings. Oregon's legislature, as one of many after-the-war measures, passed a bill prohibiting the use, not only in public, but in private schools as well, of any language except English in general instruction. The bill, however, is not intended to prevent the teaching of any needed foreign language.

Pennsylvania's legislature appropriated \$50,000,000 for road building to make work for unemployed. Erie, Pa., undertook a building stimulation campaign, and in Philadelphia a poster movement was begun to warn against selling of War Savings Stamps below their face value. Brokers, it was found, were encouraging such sales.

The Memphis, Tenn., Chamber of Commerce voted \$1,800 to be used

AIRSHIP WILL CARRY
HUNDRED PASSENGERS

Trans-Atlantic Trips Will be Made Frequently in Future, is the Prediction

48 HOURS TO MAKE THE TRIP

London, May 15 (By Mail)—Fare to America by air—four cents a mile.

This is the Vickers' Co.'s predicted price for a trans-Atlantic trip in the new gigantic airship, now practically completed at the firm's Barrow yards, and of which the trials are scheduled for May. The vessel, which is of the latest improved type, will have a cubic capacity of over 1,200,000 feet, and is designed to carry 100 passengers to America in 48 hours. The average speed for the trip will be 75 miles per hour, and the fare should work out at about four cents a mile, or \$240.

Vickers are also building a number of airships for sporting purposes, including Africa big-game-hunts.

It Wards Off Croup

Never put a croupy child to bed without giving a dose of

FOLEY'S HONEY-TAR

Mothers know it stops croup because it cuts the thick choking mucus, clears the throat of phlegm, stops the hoarse metallic cough, eases difficult breathing, gives quiet sleep.

Mrs. T. Neutner, East Chicago, Wis., writes: "Foley's Honey and Tar completely cured my boy of a severe attack of croup."

Mrs. Chas. Jones, Allen's Mills, Pa., writes: "I have used Foley's Honey and Tar for the past eleven years, and would not be without it. It has saved my baby a doctor's bill for croup and croup."

LET THESE COLUMNS BE YOUR GUIDE

KICKLESS DRINKS AT THE SAME OLD PRICE

Wine Card Without the Kicker Still Stares the Toper in the Face High Prices.

OLD TOPERS ARE DOUBTFUL.

Columbus, Ohio, June 12.—Now comes the kickless wine card.

Old toppers who have flirted with John Barleycorn for years will rub their eyes in wonderment when they lamp the "camouflage booze" lists prepared by downtown grills.

"Exhilarating and Non-Alcoholic Beverages," reads the new drink list prepared for the arid days that began in Ohio May 27.

The new card reads just like the old ones. There are "sparkling wines," high balls and rickys, "fizzes and flips" and "beers." You can also get an "Evening Sault" guaranteed to have no "Morning After."

But—if you feel groggy the next morning, take a "Noil Bracer." Then again, if you feel real devilish along towards noon, you can have a "Horse's Neck." This will cost you 40 cents in the coin of realm; and, the list says, it is composed of ginger ale and lemon peel.

The only thing on the list reminiscent of the days of the past, is "Sparkling Grape Champagne" at two dollars a throw.

Despite the "camouflage" making-up of the new kickless drinks, the old familiar prices will stare the hopeful sipper in the face.

"You can't tell," one old toper remarked optimistically when the new list was exhibited. "There might be a kick in the stuff. It says exhilarating."

Rembrandt, the great painter, knew the Bible by heart from end to end.

Says His Prescription Has Powerful Influence Over Rheumatism

Discoverer Tells Druggists 'Not to Take a Cent of Anyone's Money Unless Allergic Completely Banishes All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers.—(Adv.)

GOV. GOODRICH WILL SPEAK

Annual Commencement of S. and S. O. Home to be Held June 19

Knightstown, Ind., June 11.—The annual commencement exercise and home coming at the Indiana Sol-diers' and Sailors' Orphans' Home will be held Thursday, June 19. It is expected Governor Goodrich will deliver the address. The list of graduates includes fifteen girls and eight boys. The big feature of commencement week will be the school play, "The March of Demo-cracy," in which 400 children will participate. Records at the home show that 267 boys from that in-stitution served in the world war. A number of girls from the home were also in war work.

The cost of building in Denmark has more than doubled in the last few years.

Amusements

"The Silver King"—Princess

Barbara Castleton, recognized as the most beautiful and talented player of the stage, is the leading woman in "The Silver King," which is being shown at the Princess theatre tonight and tomorrow.

Miss Castleton was born in Lit-tle Rock, Ark., and educated in New Rochelle, N. Y. She went on the stage at an early age and among her most important portrayals were those disclosed in the leading parts of "It Pays to Advertise" and "Madame Sherry." In these pro-ductions she was highly successful and gained enviable popularity with the amusement loving public.

Miss Castleton has been known to film fans for several years and she has appeared in such pictures as "Parentage," "Daughter of the Gods," "On Trial," "God's Man," "Empty Pockets," "The Ashes of My Heart," and many other equally meritorious photoplays. In "The Silver King," Miss Castleton has the part of Nellie Denver, wife of an English country squire, who is ruined by a supposed friend and who subsequently is the central figure of intensely interesting events.

"Midnight Madness"

Ruth Clifford and Kenneth Harlan in "Midnight Madness," is the offer-ing at the Mystic theatre tonight. Tomorrow Harry Carey in "A Fight For Love," is the offering.

He's just as good a rough rider on the sea as he is on the back of a Western cow pony—is Harry Carey. It takes a big man to be an adept at several life jobs, but that's what Harry Carey is. Now, a man who knows navigation isn't common in cowboy circles. In fact, a sailorman is as little thought of in the cattle-raising part of the great West as a landlubber is on the sea. But here is Harry Carey—an expert on the subject of navigation.

Here is a convincing argument against the belief that actors should create a certain type and thereafter live up to it. The truly great actor should not degenerate into a mere imitation of himself, and such a state is often brought about by a too

frequent depiction of a same type. It is when a person has become closely associated with a certain condition that he should break away from it, and that is exactly what the Universal star has done.

FINED FOR ASSAULT.

Arie D. Colestock pleaded guilty to a charge of assault and battery before Squire Stech this morning and was fined \$1 and costs. The affidavit was filed by Sanford Heat-ton, whom he is alleged to have as-saulted.

BLUE FRONT
115 West Second St.
"A Little Off of Main, But It Pays to Walk"

The Thursday Afternoon Bridge Club was entertained this afternoon by Mrs. R. E. Harrold at her home in North Perkins street. A lunch was served to the guests after the playing.

Mr. and Mrs. Gates Kerehum entertained the Sunday school board of the St. Paul's M. E. church last night at their home, 433 West Third street. The meeting was devoted to the discussion of business matters.

Mrs. Hillary Haydon entertained the members of the Wednesday Afternoon Bridge club yesterday afternoon at her home in North Main street. The afternoon was spent over the bridge tables, after which the hostess served delicious refreshments.

Mrs. Ora Smith entertained yesterday at her home in Falmouth with a delicious fried chicken dinner.

The dining room was beautifully decorated with roses and covers were laid for Mrs. Ben Perry, Mrs. Walter Rees, Mrs. Harvey Arnold, Mrs. James Keating, Mrs. Ernest Jeffry and Mrs. Mariah Fry.

Mrs. John Heifner was pleasantly surprised on the occasion of her birthday anniversary, at her home in Arlington last night. The guests included Mr. and Mrs. C. L. Bebout of this city, Mr. and Mrs. L. E. Gardner, Mr. and Mrs. James Heifner and sons, Edwin and Ralph, Mr. and Mrs. Omer McKibben and Bert Heifner and son Earl. Refreshments of ice cream and cake were served.

Mrs. J. W. Hogsett was hostess for the Band of Workers of the First Presbyterian church yesterday afternoon at her home in North Main street. The afternoon was devoted to a business session at which the secretary's book was closed up for the outgoing year and business plans for the future were discussed. After the business hour the hostess, assisted by Mrs. Will Wallace, served a delicious luncheon.

Miss Hallie Marie Fultz, daughter of Mr. and Mrs. John Fultz of this city, and William D. Parker of Erie, Penn., were married by the Rev. C. J. Bunnell, pastor of the First Baptist church, at his home yesterday afternoon at three o'clock. Mr. and Mrs. Parker went to Indianapolis yesterday evening and from there to Erie, where they will reside. Friends of the bride decorated their machine while they were at the parsonage and had some fun at the expense of the newlyweds after the ceremony.

The Woman's Relief Corps met yesterday afternoon in the D. A. R. room in the court house for their regular monthly session. An interesting program was enjoyed by the members after which a short business session was held. It was decided that the corps will decorate the graves of their past members tomorrow afternoon and they wish to request that the members meet at the north entrance of the court house at 2:30 o'clock, from where they will start not later than 3 o'clock for the cemetery.

Twenty friends of Miss Ruth Arnold delightfully surprised her last evening at her home west of the city the occasion being her fourteenth birthday. The rooms were beautifully decorated with roses and other cut flowers. The evening was spent in playing games and with music, at the close of which the guests were invited into the dining room to enjoy refreshments of strawberries, ice cream and cake. The table was centered with a large birthday cake decorated with fourteen red candles. Those present were Lois Addison, Katherine Readlee, Margery Winslow, Anna Riddin, Mary Sharp, Eva Stewart, Beniah Ellison, Lucille Bagley, Ruby McDaniel, Rita Durrell, Floyd Ellison, Herman Ernst, Marian Lee, Francis Readle, Ralph Hill, Lowell Offutt, Alfred Allison, Elvin Readle and Charles Allison.

EVERY AERIA IN THE STATE REPRESENTED

Fraternal Order of Eagles Holds Convention Which Opens Today at New Castle

A. B. DUNCAN GIVES ADDRESS

Newcastle, Ind., June 12.—Every Indiana aerie of the Fraternal order of Eagles sent one or more delegates to the state convention which opened here today.

Mayor George A. Elliott welcomed the Eagles to the city, and Wallace J. Dillingham, of Warsaw, responded. The Eagles went into session at 10 o'clock and various committees were appointed to handle business of the session.

Crack degree teams were to compete for a \$50 prize this afternoon.

A. B. Duncan, St. Joseph Mo., grand worthy president of the order, will address the meeting. Frank E. Herling, South Bend, editor of the Eagle magazine, also will talk.

REVIVAL SIMILAR TO FARMERS' INSTITUTE

General Subject of Meeting at City Park is How to Raise More and Better Grain.

APPLICATION TO THE SOUL

For a time last night the city park revival meeting took the form of a farmers' institute. The general subject was "How to raise more and better grain," with special reference to the proper preparation of the soil. It was conceded that the best of seed could bring no more than an inferior crop unless the ground was worked until mellow, yet firm enough to close in upon the grain and hold moisture sufficient for germination.

"Just so," said the Rev. Fred Dennis, "in the matter of spiritual growth and fruitfulness. The soul, so long neglected, has become hardened by rough usage until the plough share of Divine truth passes through the soul, uprooting the noxious weeds of sin, and, at the same time, exposing the soul to the

purifying and healing rays of the sun of righteousness."

Captain and Mrs. Tench, leaders of the Salvation Army here, and their guest, Miss Rader of Linton, Ind., attended the meeting last night and sang a trio that was enjoyed by all present.

The subject for Thursday night's meeting will be "Supposition vs. Knowledge."

PEACE PARADE WILL BE HELD AT CAPITOL

Washington Will Celebrate Independence Day With a Parade and Pageant to Typify Peace.

ALL NATIONS TO TAKE PART.

Washington, June 7.—Washington is preparing to celebrate Independence Day this year with a pageant and parade typifying the return of peace and friendship to the world.

Every nation which has an accredited representative in the national capitol has been asked to take

part in the big demonstration and many are preparing elaborate floats depicting the art, industry and national life of their respective countries.

The principal features of the celebration will be a series of tableaux in front of the various public buildings followed by a parade, up Pennsylvania Ave. to the Capitol, after which medals will be presented to the Washington soldiers who took part in the war.

President Wilson, cabinet members, supreme court justices and other high officials will occupy seats of honor at the capitol.

The Stewart property on the corner of Fourth and Morgan streets has been purchased by Ray Lakin of this city. Mr. Lakin reports that he will make a rooming house out of the building. Mrs. Hugh Logan was the owner of the property.

ROYAL ARCH DEGREE
Rush Chapter No. 24, R. A. M. will have work in the Royal Arch degree Friday evening at 7:30 o'clock.

One of the richest iron ore deposits in the world is in the Rajara hills, India.

Mr. and Mrs. Wabbar Allison moved their household goods to Allen Cloud's Monday.

Austin Hyatt is seriously ill at this time.

Mr. and Mrs. Will Dobbins and

Why a HOT SPOT Chalmers is Well Nigh Trouble Proof

MOST troubles in a car come from faulty lubrication. An authority remarked the other day that 75% of all troubles could be traced to this cause.

A former professor at Yale said: "Give a car plenty of lubrication and it will take care of itself."

Now here's how the Hot Spot Chalmers happens to be free of lubrication ailments.

Hot Spot "heats up" the raw gas, "turns it into a vapor cloud," so that when the ingenious Ram's-horn has passed it on to the cylinders it's finely prepared for combustion.

No raw gas runs down past the pistons into the crank case to thin out the lubricating oil.

In engines of the old type—those without Hot Spot and Ram's-horn—raw gas has caused endless trouble:

- burned bearings that cost a great deal to replace;
- excessive vibration that develops countless rattles;
- engine knocks that are often taken for carbon knocks;
- overheated engines.

Such things you rarely experience in a Chalmers and then only through extreme personal carelessness.

See the modern engine in the modern car—the Hot Spot Chalmers, one of the few great cars of the world.

Geo. C. Alexander

Many Masters

We who serve the nation by providing its meat have many masters.

There are hundreds of thousands of stock raisers, asking for a quick market and a high price for their stock.

There are the millions of consumers looking to us, through tens of thousands of retail dealers, for a constant supply of meat at as low a price as possible per pound.

There are the thousands of wage earners properly eager to earn more.

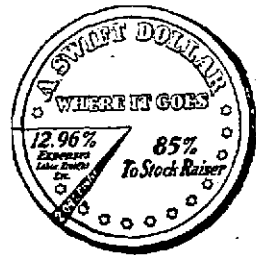

There are the 25,000 holders of Swift & Company shares—8,000 of them women—who have a right to expect reasonable returns on their investments.

There are the hundreds of competitors, big and little, alert to discover, for their own advantage, any momentary breakdown or lapse in our service.

In all our activities we try to deal on a basis of equity, so that all may benefit and none be injured by the advantages that go with organization, wide scope, and efficient management.

And this service of Swift & Company is performed at a profit of a fraction of a cent per pound.

Not Hard To Combat Insects in Gardens.

From the time the earliest seed is put into the ground to the harvesting of the last crop, every home vegetable garden may be expected to suffer from the attacks of the army of insect pests which annually creep from their winter quarters, hungry from their long fast, to fatten on the carefully nurtured seedlings, riddle the grown plants, and multiply to countless thousands during the days of midsummer. The careful and far-sighted gardener may most readily demonstrate his skill through the adoption and correct application of the remedies best designed to control this horde.

Wherever a small plot of potatoes is grown the Colorado potato beetle is likely to be found. The mature or "hard-shell" beetles, which have spent the winter safely buried in the ground, begin to come out about the time when the plants are a few inches high. First they hungrily devour a part of the young and tender foliage, after which they begin

to deposit, on the undersides of the leaves, their clusters of orange-colored eggs, of which a thousand or more may be laid by a single female. Effective work may be done at this time by hand-picking the beetles from the plants into a can of water, with a little kerosene over the surface. The eggs may be crushed between thumb and finger.

Care at this stage will prevent the appearance of the fat, shiny red larvae or "slugs" which are much more destructive than the beetles, frequently stripping the plant entirely if left without attention. When first hatched, these feed in groups, but as they grow larger, they spread over the plant. When growth is completed, they descend to the ground, into which they burrow to a depth of several inches. When in the course of a few days they again emerge, they have taken the form of the parent beetles.

The Colorado potato beetle is one

of the pests most easily controlled. It feeds readily on poisoned foliage, and the well-known treatments of spraying or dusting with arsenate of lead or Paris green should be familiar to every grower. The spray mixture may be prepared in small quantities by mixing two thirds of an ounce, or ten level teaspoonfuls of

Getting at the Potato Bug With a Hand Sprayer.

powdered arsenate of lead with a gallon of water. This should be applied with a sprayer capable of throwing a fine, mist spray. A good atomizer will do effective work on a small scale, at a cost of a dollar or less. The upper surfaces of the leaves should be well covered by the spray. A simple method of dusting is to mix thoroughly the same quantity of powdered arsenate of lead or a heaping tablespoonful of Paris green with a quart of air-slaked lime or lime plaster. Dust this over the plants by shaking through a cheesecloth bag.

One of the earliest spring butterflies to haunt our gardens is the dancing white sprite recognized by a few as the parent of the disgusting velvety green caterpillar which in midsummer and fall works such destruction to our cabbage plants. This pest, the imported cabbage butterfly, passes the winter in the chrysalis, attached to old cabbage stalks and fences, buildings and similar protections. As soon as cabbage, cauliflower, and the like crops are available, the eggs are deposited singly upon the leaves. The caterpillars reach their growth in a short time, and there may be several generations annually. By fall, they may readily become so abundant as to riddle considerable plantings of cabbage, and their work may not cease with the winter, as they burrow into the heads and may thus be carried into storage.

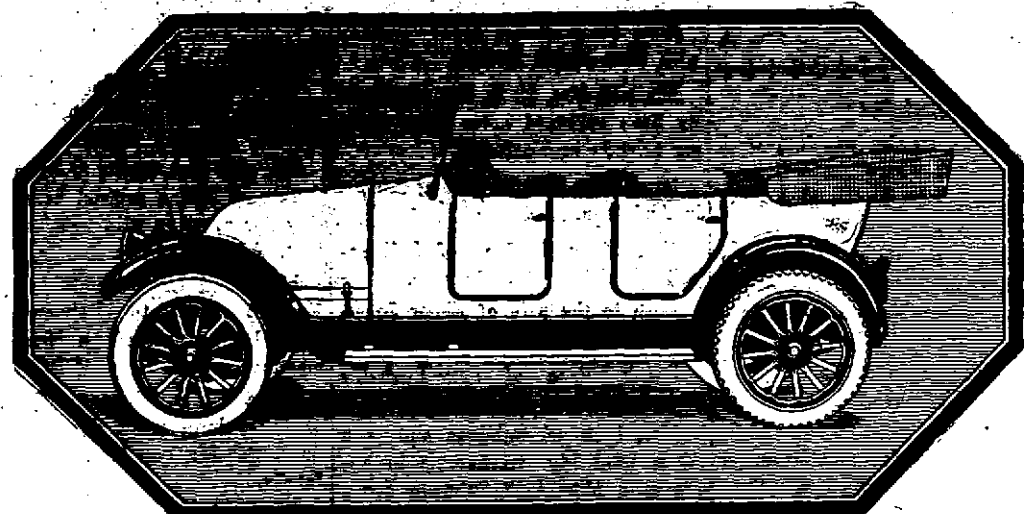

Spraying or dusting with arsenate of lead is an effective remedy. The treatment should be begun when the plants are quite small, and should be repeated two or three times during the season. Since a cabbage head grows from the inside and the outer leaves are usually removed before cooking, there is no danger that persons eating cabbage so treated will be poisoned.

The common paper wasp which nests beneath the eaves of porches and outbuildings will prove its friendship if given opportunity by effectively freeing cabbage plants near its abode from these destructive caterpillars upon which it feeds its ever-hungry young.

When the grower enters his well-kept garden, in which a day or two before he has set out a fine lot of cabbage or tomato plants, and finds that a goodly part of them have been cut off near the roots by some invisible and insidious foe, he is likely to become discouraged at the effort to fight the stealthy attacks of these nocturnal marauders, and to wonder whether the game is worth the candle, especially after the plants which he re-sets are attacked in the same manner.

If he is familiar with the habits of cutworms, however, he will, before replanting, make a search in the soil within a few inches of the base of the damaged plant, and will probably be rewarded by uncovering a smooth, greasy-looking, gray or brownish caterpillar from an inch to an inch and a half in length, the foe which he is seeking.

Cutworms are the young or larvae of a number of kinds of medium-sized grayish or brownish moths, and are likely to be found wherever a garden has been allowed

14,500 Miles to the Set of Tires New National Average established by The FRANKLIN CAR

A nation-wide investigation among Franklin owners has just been completed. It covered all types of the present model in every part of the country, which have been driven day by day for over two years. The results show a delivery of over 14,500 miles to the complete set of tires.

Has Delivered More Than Claimed

When in 1916 the present chassis was put on the market, it was known that its lighter weight would give greater tire economy. Yet former figures of 10,000 miles were not changed in Franklin statements of performance, until owners' results were available. Franklin statements are based on facts, not on estimates.

It is Car Principles That Counts —Not Tires Only

This newly proved economy is just fresh evidence that even the best tires cannot compensate for bad principles of automobile construction. That to

save tires, lightness of unsprung weight—weight below the springs—must, in the future, be the continual aim of car designers. That light total weight and flexible construction throughout the car are indispensable to low upkeep.

In the Lead for Seventeen Years

The Franklin Car has always led in economy because for seventeen years it has been continually perfected by the application of those principles which are the basis of economy. Today—the average running expense of its owners is indicated by the figures—

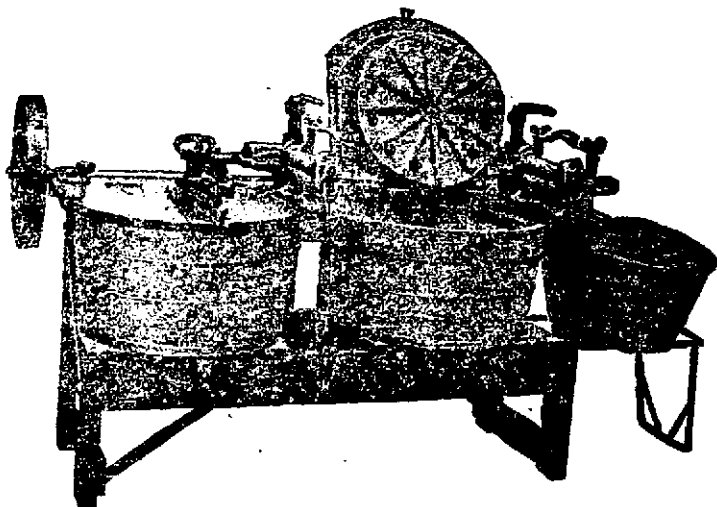

20 miles to the gallon of gasoline
14,500 miles to the set of tires
50% slower yearly depreciation

WOMAN'S FRIEND

POWER AND ELECTRIC WASHER

Notice the good features on the Woman's Friend Machine that you will not find on any other washer—

See the large, round rubbing board that you will not find on any other power washer. It is 4 inches larger than on any other machine using the same style rubber, and is the only power washer with the LARGE end of the tub at the top and the Small end at the bottom, which enables you to do a small washing with less water than with the large end of the tub at the bottom. The tubs are made of White Cedar and are 12 in. thick, which makes the best tub you can buy and will last a life time. You do not need a wash-board when you use the Woman's Friend Power Washer. It will not roll up the clothes.

The single and double both have two stationary wringers, which make them solid and more durable than the swinging wringer.

O. C. BRANN

stripes or spots, while others are more or less bronzed. They feed on a variety of plants, although each usually prefers those belonging to some one particular group. Thus, one kind will feed on potato, tomato and eggplant, while another favors turnip, cabbage and radish. When disturbed, they leap suddenly to a considerable distance by their powerful hindlegs.

Since the larvae of flea-beetles are protected from insecticides by their habits of living, being either root-feeders or leaf-miners, it is necessary to guard plants which may be attacked by the adults by treatment with arsenical or repellent applications. Of the former, nothing is better than a spray of arsenate of lead, applied at the rate of 10 level teaspoonfuls to a gallon of water, with care to cover the plant completely, since the beetles will avoid sprayed portions of untreated leaves are available

As a repellent, Bordeaux mixture is standard. A mixture of equal parts of air-slaked lime, and tobacco dust, dusted over the plants, is also effective against most flea-beetles.

A successful experiment in peanut cultivation on the Euphrates river in Mesopotamia has been accomplished.

GOT GOOD RESULTS

This honest, straight forward letter from a woman who has suffered should be heeded by all afflicted with backache, rheumatic pains, sore muscles, awful tired feeling and other symptoms of kidney and bladder trouble: "I have got such good results from Foley Kidney Pills that I can sleep much better and the pain in my back and sides is a good lot better. I am going to keep on taking them." Mrs. Chas. Gray, 270 6th St. Detroit, Mich. F. B. Johnson. Adv. 2

ARKANSAS GOVERNOR VISITS MONTGOMERY

To Study Agricultural Methods of Purdue University—Commercial Organizations Represented

ALSO STOP AT OTHER POINTS

(By United Press.)

Crawfordsville, Ind., June 12.—Montgomery county was to be visited today by the governor of Arkansas and representatives of 54 leading commercial organizations of that state. The party was to study agricultural methods and other phases of rural life under the auspices of Purdue university.

This county was chosen because of the remarkable showing made by its farmers in county agent work, and also because of the fact that it was the first county in the United States to put on a full paid force of Boys and Girls club leaders in the townships.

The visitors, who are travelling in two Pullmans, are also stopping at other points in Illinois, Michigan and Kentucky during the 10-day trip to view agriculture conditions. Several herds of hogs numbering over 1,000 each will be inspected. The consolidated rural school idea which originated in Indiana will be demonstrated.

G. I. Christie, head of the extension department of Purdue university, is accompanying the Arkansans. Others from Purdue included: T. A. Coleman, state county agent leader; Tom R. Johnston, assistant county agent leader; George Friar, head of the Farmers Short Course department and Z. M. Smith, state leader of boys and girls clubs.

British Columbia's male population on registration day a year ago was 186,747.

A COMMON SENSE CURE

Don't suffer from biliousness, sick headache, sour stomach, gas, bloating, or other results of indigestion. Foley Cathartic Tablets clear and sweeten the stomach and bowels, enrich the liver, and have a good tonic effect on the whole intestinal tract. They are a good wholesome, phytic, an ideal laxative, with no bad after-effects. They cause no griping, pain, nausea. Stout persons say they have no equal for bringing about a light, free feeling. F. B. Johnson. (Ady.) 5

WELCOME MEETING TONIGHT

Miss Opal Reeder of Linton, Indiana, is visiting Capt. and Mrs. Tench of this city for a few days. There will be a welcome meeting in her honor tonight at the Salvation army hall.

It Will Do You Good to Know That Others TAKE

PEPSINCO

In the sale of PEP-SINCO we know of course that advertising pays, but in this sense it's not the advertising which we buy in this newspaper, but the advertising which satisfied users of PEP-SINCO give us through their sincere and immediate recommendation to others. No remedy in our entire stock, for the purpose seems to give such universal satisfaction as PEP-SINCO and this, whether it is taken for simple case of gas, belching, chronic indigestion or acute dyspepsia. You can safely put your trust in PEP-SINCO with complete faith it will not fail you.

Ask your druggist—he sells and recommends Pepsinco.

Girls Wanted
Over 18 Years of Age
Rushville Laundry

Many children are behind their class because of bad, unclean teeth.

Get to the bottom of your dentist examine your teeth and treat them if necessary.

Then ask her to get you a tube of S. A. R. CO. tooth paste. It's the best tooth clean, S. A. R. CO. tooth paste will do it. Keep teeth clean and gums and the anything excepting your toothbrush.
